DEDICATION

With love, this book is dedicated to

Dale

who saved my life and who I will love forever.

You are my best friend and you are my hero.

And thank you for being such a good sport!

This one's for you Poo!

ACKNOWLEDGMENTS

I wish to especially thank Dr. Harold Clark and the Common Cause Medical Research Foundation for their dedication and research of the organism mycoplasma. If not for them, a happy ending to my story would never have been possible.

FOREWORD

“If everyone agrees with what I have written, it probably wasn’t worth writing.”

At the present time, our country and for that matter the entire world, is in the grips of a terrible epidemic. The organism I am referring to is called mycoplasma. This organism is the cause of many of today’s diseases: Alzheimer’s, Parkinson’s, ALS, multiple sclerosis, lupus, endometriosis, ADD/ADHD, Fibromyalgia, bi-polar depression, Chronic Fatigue Syndrome, Psoriasis, lupus, RA, and many others too numerous to list.

How can I so confidently state the above? Because reliable, dedicated researchers and scientists have proven beyond a reasonable doubt that this organism exists and is the cause of these diseases. (See Symptoms and Diseases Caused by Mycoplasma.)

Up until now, these diseases have meant only “doom and gloom” for families all around the globe, but this book will give them hope. Mild Silver Protein (MSP), as proven by my medical records and scientific research, kills this disabling organism with very little side effects and no harm to the human body.

I cannot truthfully say that MSP is a 100 percent “cure,” because the treatment is NOT a vaccine and does not guarantee that once a person is “cleansed” of this organism, that he/she will not get re-infected again if he/she shares body fluids with an infected person.

Also, if a mycoplasma-infected person receives the treatment, the treatment does not automatically reverse the damage the organism has already caused. As in my case, my body has healed, but I will never be the same Linda I was before I became ill. But there’s good news! The pain in my joints has almost disappeared!

Finally, I take full responsibility for the content and subject matter in this book. I also accept the fact that many people will criticize me and reject this book. But if I can inspire and give hope to the sick and weary and make a difference in just one person’s life, the pain and suffering I had to go through was worth it!

I just ask that you open your mind and allow yourself to become enlightened, for you will never read another story like mine!
